DLA Distribution
Vendor Shipment Module
(VSM)

Vendor User's Guide

Table of Contents

Introduction

Vendor Shipment Module (VSM)

VSM is the vehicle by which vendors process shipments and are able to notify our Transportation Agents (TA) that their shipments are ready for transport. No matter the size or weight, VSM will assess information you provide and process your shipment according to the contract terms. Once shipment is processed, VSM will allow you to access your contract information in order to print the applicable documentation for your type of shipment.

VSM is a web based, front-end application interfaced to the DSS mainframe. It is also capable of full Electronic Data Interface (EDI) integration at the vendor location. The EDI version is more complex and requires more programming on the vendor's part to integrate into their production systems. However, the payoff includes higher volume shipping capacity and eliminates human intervention in the process.

VSM Help Desk

The Help Desk for DLA Administered contracts can be reached by email at delivery@dla.mil or by phone Mon-Fri 0600-1700 Eastern Time at 800-456-5507.

The Help Desk for DCMA administered contracts can be reached by email at dcma.stlouis-mo.central-rc.mbx.VSM-Shipments-Transportation@mail.mil or by phone Mon-Fri 0600-1700 Central Time at 1-314-331-5573.

When processing Free on board (FOB) destination shipments in VSM

When processing FOB destination shipments in VSM, the vendor selects the desired Purchase Order to ship, enters shipment weight, dimensions and carrier and submits transaction. VSM determines "Ship To" and "Final Destination" addresses using the Global Address file and transportation logic in DSS. Once shipping addresses have been derived, the system generates a MIL-STD-129P compliant Military Shipping Label (MSL) in Adobe Acrobat Portable Data File (PDF) format, which is printed at the vendor location.

When vendor processes a shipment requiring Aerial Port Clearance, shipment is offered for clearance to the Financial Air Clearance Transportation System (FACTS).

When clearance is complete (this could be up to 3 days), VSM notifies vendor via their web page that the shipment has been cleared and shipping labels are available to print.

When processing Free on board (FOB) origin shipments in VSM

Similar processes are executed for FOB Origin Shipments. When the vendor processes a shipment in VSM, the freight is offered through system to procure transportation by the Government. This includes securing a carrier and arranging the pick-up schedule, creating the CBL (Commercial Bill of Lading) for freight shipments and alerting vendor the shipment is scheduled and all documents are ready to print. Small parcel shipments will include a small parcel carrier label and vendor will be required to request a pick up from that carrier. Vendor must ensure paperwork and freight are ready to ship when carrier arrives for pick-up.

Things That Can Delay a Vendor Shipment

Notice of Availability (NOA)

VSM does not systematically create NOA's. They must be manually prepared. The Foreign Military Sales (FMS) NOA accomplishes the following things:

1) Alerts a freight forwarder that materiel is ready for shipment

2) Obtains shipping instructions from the customer country or their representative for materiel that may be hard to handle (e.g. Hazardous, Perishable, or Classified).

Process:

- NOA must be sent for oversized, overweight or Hazardous shipments.

- **However,** the shipment will not be released until a response from the proper NOA addressee is received.

- **First NOA**: If a NOA response is not received within 15 calendar days of the NOA date.

- **Second NOA:** The shipping activity will send a second NOA to the designated NOA recipient using the same TCN.

- **Third (and final) NOA:** If no response is received within 15 calendar days of the second NOA, a third NOA will be sent with the number 3 in the NOA "Notice Number" field to indicate that release continues to be delayed due to non-response to the original and second NOAs.

- Total delay that could occur is 45 days.

- If no response is received after 45 days, the respective Implementing Agencies (IAs) (e.g., Army, Navy, Air Force) are notified doe to the lack of response from Freight Forwarders for final resolution.

Freight Shipments - Automatic Transportation Request (ATR)

A carrier will arrive at your facility to pick this shipment by the below chart.

Tier 3 – Shipments are picked up on the 3rd day after 219 submission
Tier 2 – Shipments are picked up on 2nd day (12/24 hours)
Tier 1 – Shipments are picked up on same day (4/8 hours)

This is all dependent on when the 219 is submitted and if there are still hours left in the business day.

Things That Can Delay A Vendor Shipment, Continued

Exception Errors

Exception errors come in many different ways, but the errors always happens after the transactions has been processed.

Exception errors include:

- Exception address requires review (No address found)

- Invalid Air Code Pairing

- Financial and Air Clearance Transportation System (FACT) * Can take up to three days.

- Automated Commercial Environment (ACE)/ Internal Transaction Number (ITN)(Customs Documentation)

- Freight Release

Login Procedures

Signing on

Sign onto the following website: https://vsm.distribution.dla.mil/net/

Read the terms and conditions and agree to terms.
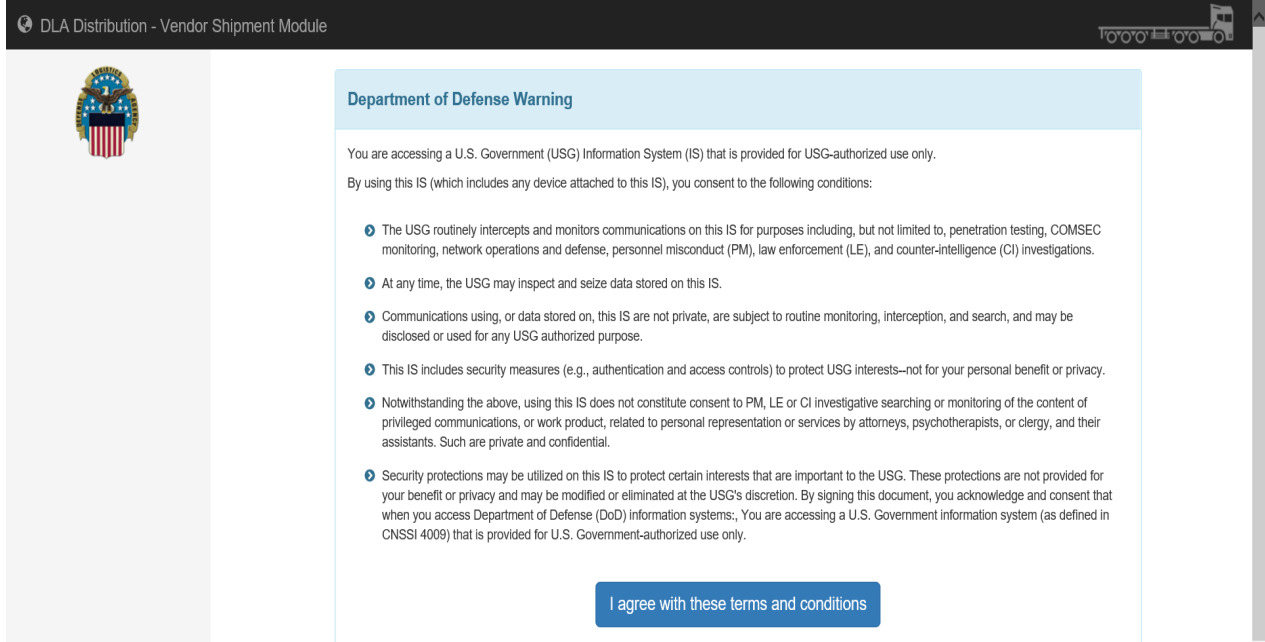

Enter your user ID and password and click **LOGIN**. Your User ID and Password should have been provided to you in two separate e-mails from delivery@dla.mil with a subject line: VSM Account.

Password Change

First time User logs into the VSM website https://vsm.distribution.dla.mil/net/. The system will force a password change. System will also force a password change each time a User ID is either locked out, or reset, and after each 90 day period.

Login Procedures, Continued

Resetting the password

If you need to reset the password, click on "Reset Password."

Follow the directions on the screen.

An email will be generated and sent to the user.

Click the Home button on the page to go back to the DoD Warning page (below).

After the user has followed the instructions in the email, agree to the terms and condition to enter the logon screen.

Login Procedures, Continued

New Password Requirements

VSM Screen Layout

Origin Processing Screen

> After your successful login, you will be automatically directed to ORIGIN PROCESSING screen. Notice the DLA logo with your Company Name at the top of the screen. The parenthesis shows what site you are logged into. VSM production screens are divided into three main areas: The top navigation bar, the main processing production area in the center, and the search area along the left portion of the screen.

Primary navigation buttons

> The top navigation bar contains primary navigation buttons. They are from left to right:

- Manual Purchase Order (MPO)
- FOB Processing
- Print
- Seavan
- Inquiry
- Reports
- Exceptions
- Maintenance
- How to
- Notification Page
-

> These navigation buttons are explained further in this section and in detail in separate chapters in this guide.

VSM Screen Layout, Continued

MPO button

The MPO button permits a Manual Purchase Order entry.

You can either Process by Purchase Order or Process by Requisition Number.
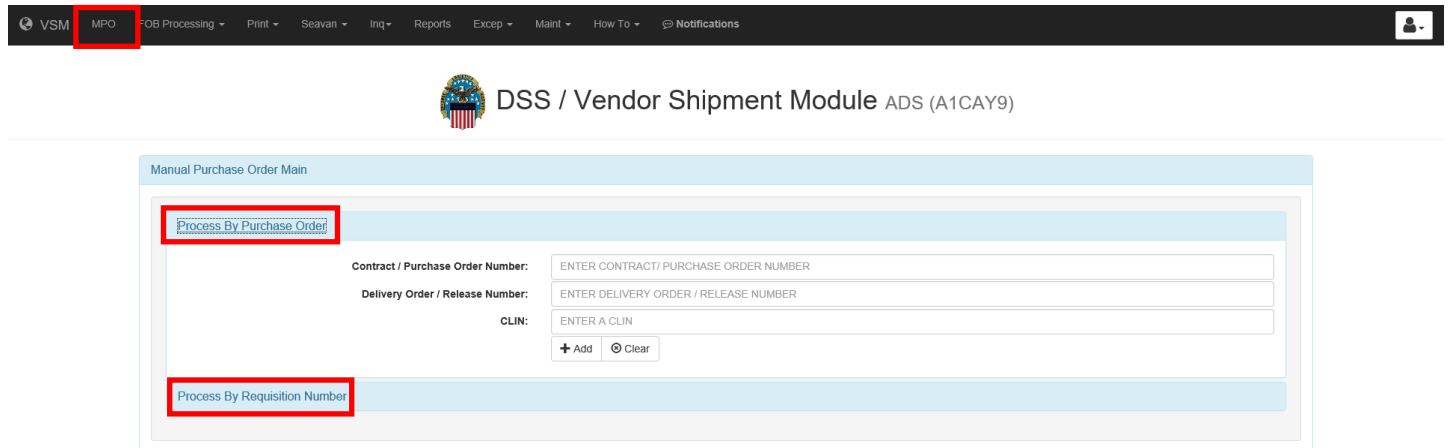

FOB Processing

FOB Dest button allows you to process FOB Destination contracts from any location listed with same Cage Code in the system.

FOB Origin button allows you to process FOB Origin contracts from any location listed with same Cage Code in the system.

VSM Screen Layout, Continued

Print

Print screen will present a list of shipments that are completely processed and ready to ship. The PRINT button has three functions: First, you will be able to select a shipment and print all required shipping documentation from here. Second, you are able to reprint your documentation, utilizing the REPRINT option. Third is to print DD250 from shipment already processed.

SEAVAN

The SEAVAN button is used to process seavan shipments if you source load seavans.

VSM Screen Layout, Continued

Inquiry

The Inquiry Screen tab permits user the option to either view inquire history or run MRO Tracker.

Reports

The Reports tab you can select several reports to view based off selected search option.

VSM Screen Layout, Continued

Exception button
   Exception button has several drop down options:

- **Pending Shipment** – Shipments on air challenge will appear in pending status until the Air Clearance Authority (ACA) releases shipment.

- **Fedex Pickup Request** – Enter shipment control number and retrieve shipment information

VSM Screen Layout, Continued

Maintenance

> **Note:** Maintenance menu options will vary depending on user's authorization level. The main POC for your VSM account is the only one allowed to make changes to your profile.

> **Update Vendor Profile** – Used to update the company profile.

> **Change Password** – Used to change your password that you logged onto system with. Remember to refer to the Password creation rules when changing passwords.

> **Add/Modify Hazardous Record** –Used to enter document requirements for specific modes of transportation. Items may be researched using NIIN Part Number and manufacture's Cage code.

> **Retire PO Records** – Search screen that enables old PO deletions. Enter PO and submit to clear shipments that were shipped not utilizing VSM.
> **NOTE:** Validate your deletions before retiring the PO record. Once a PO record is retired, it cannot be manually entered again.

> **User Admin** – User Admin can be used to add user to the account.

> **Add Shipping Point** – Used to add an alternate shipping point.

> **Note:** Canceling a shipment removes all information. You must contact the VSM Support Staff at 1-800-456-5507, or E-Mail: delivery@dla.mil to have a shipment canceled.

VSM Screen Layout, Continued

How to

Allows you to access Enhancements and User Guide.

Notifications

Used for additional alerts.

Allows you to change color setting and logoff.

Search Options

Searches

> Same or similar search options are available on all screens in VSM. The same principles can be applied to searches throughout VSM.
>
> Searches may be accomplished using complete entries such as complete requisition number or portions of the number such as the first six characters.
> Using the search option may be a more effective way of selecting Purchase Orders for shipment.
>
> For example a search for **SHIP TO: W25G1U**, system returns all orders meeting criteria. Similar searches can be accomplished by using Release Numbers, CLIN, Purchase Orders, Requisition Number. .etc.

Item Labels IAW MIL-STD-129R

Labels

Access FOB Destination or Origin:

- Select Contract you require labels for
- Select Item Labels
- Click **Submit**.

Note: Vendor is responsible to fill in blanks:

Examples of container labels

Examples of Container Labels are show below.

Examples of Unit and Intermediate Pack Labels

Examples of Unit and Intermediate Pack Labels are show below.
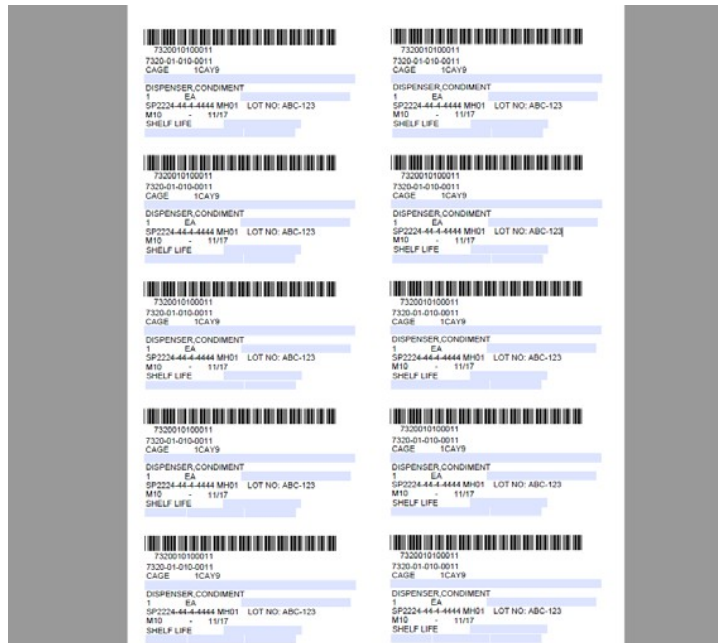

MPO Processing

Introduction

MPO processing can be done whether by

- Process by Purchase Order (Method 1)
- Process by Requisition Number (Method 2)

Method 1: Process by Purchase Order

Click on "Process By Purchase Order."
Input

- Contract/Purchase Order Number
- Delivery Order/Release Number
- CLIN

Click on "Add."
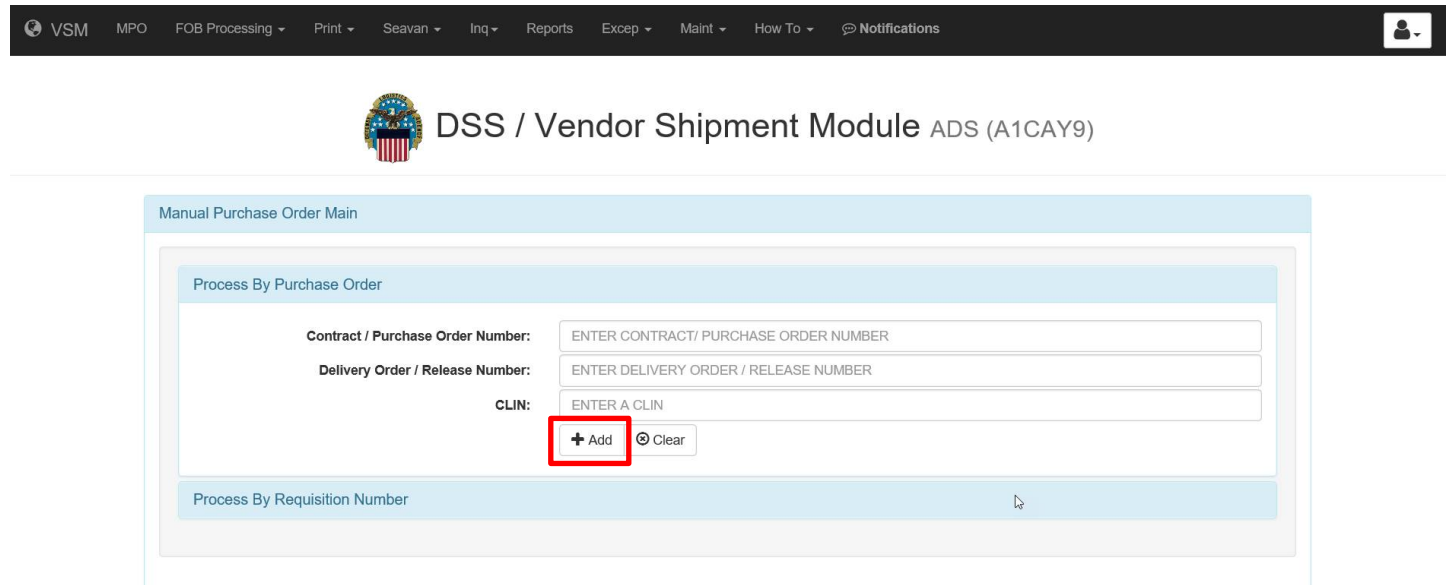

MPO Processing, Continued

Process By Purchase Order (By Requisition Number and NIIN)
Input appropriate information and click **Submit**.

Field	Description
Cage	Automatically populates with the cage code.
Release Number	It is commonly referred to as the Delivery Order Number on contract (in block 2). It is the sequential order number on a Long Term Contract (LTC).
CLIN (Contract Line Item Number)	Line item number listed on contract.
Requisition Number	The customer's document number. This will not be present for Depot stock purchases. If there is no requisition number on contract, leave blank and system will create one from the ultimate consignee. Note: It is critical requisition number provided on contract (not one located on first page) be entered in VSM, it is normally identified as the Transportation Control Number (TCN).
Purchase Order Number	The contract number (i.e. SPM000000000).
Ultimate Consignee (Final Destination)	The ultimate destination Department of Defense Activity Address Code (DODAAC). Please make sure DODAAC is input correctly. Inputting an incorrect DODAAC will send cargo to an incorrect location. If signal code is A-I, ultimate consignee is first six characters of requisition number. If signal code is J-Z, ultimate consignee will be the supplementary address.
Part Number	Not necessary for MPO
Manufactures CAGE	Not necessary for MPO **Note: When the part number is used to process an F-35 shipment, input the Manufactures CAGE. Pratt & Whitney or Lockheed Martin CAGE can be used.**
Nomen (Nomenclature)	Name of the item you are shipping…i.e... Tires, bolts, lumber etc…

MPO Processing, Continued

Process By Purchase Order (By Requisition Number and NIIN), continued

Field	Description
FSC	Four digit Federal Stock Class (FSC) code-numbering system that identifies group and class. First four of your NSN, not necessary for MPO
NIIN	The last 9 digits of NSN (i.e. if the complete NSN is 6135-00-105-9924 then the National item identifier number NIIN would be 001059924).
Quantity	Total number of items ordered on contract.
Unit of Issue	For example EA for Each, BT for Bottle, PG for package etc.
IPD (Issue Priority Designator)	A two digit Priority Code ranging from 01 through 15. If none, select 12 or higher.
RDD	Required Delivery Date – Date requesting activity needs the material.
Unit Price	Enter contracted price per unit.
Processing Type	Indicates FOB Terms of the contract either FOB Origin or FOB Destination. Note: Make sure this is selected based off FOB terms.
Contract Delivery Date (CDD)	Delivery date specified in contract. Use calculator button to select date.
Shipment Variance Code	If contract includes provisions for quantity variation (+/- 10% for example), select No Variance, Over ship allowed, Under ship allowed or Both over/under.
Project Code	A three digit field used by requisition or to specify a project or operation (i.e., 9GF).
Quantity Variance Percentage	If contract includes a quantity variance provision, enter here. For example, if allowed variation was 10 percent, input 10.

Process By Purchase Order (By Part Number)

Click on "Process By Requisition Number and input appropriate information to include the Manufacturer's CAGE.

Note: Vendors CAGE Code can be used.

Click on **Submit**.

MPO Processing, Continued

Process By Purchase Order (By Part Number), continued
Click on "Process Shipment."

Select shipment to be processed.

Click **Submit**.

MPO Processing, Continued

Process By Requisition Number

Click on "Process By Requisition Number."

Input the Requisition Number.

Click "Add."
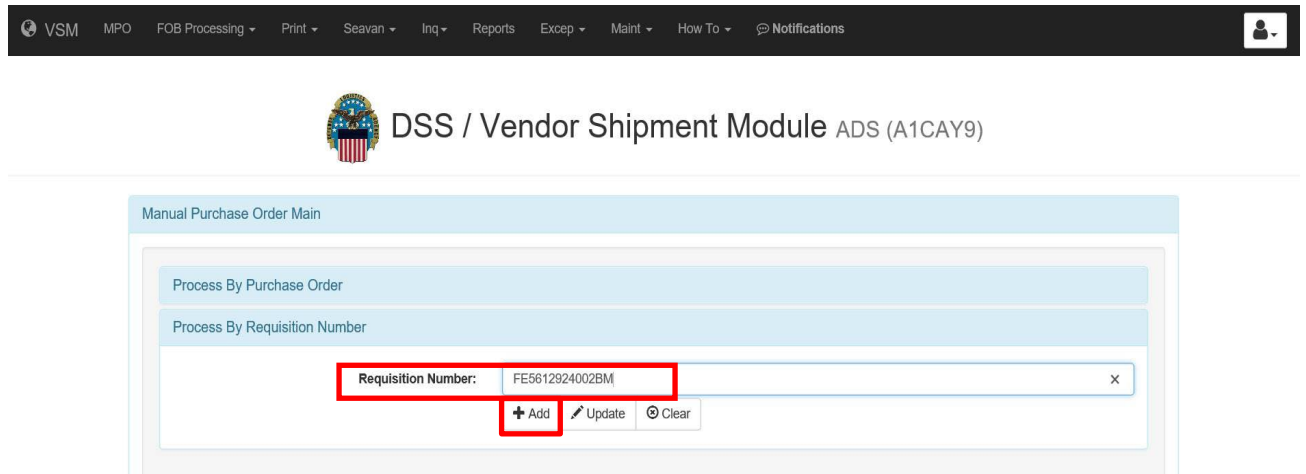

MPO Processing, Continued

Process By Requisition Number

Input appropriate information and click **Submit**.

See pages 18-19 for more information on each field.

FOB Destination Processing (Processing a Single Destination Shipment)

Processing a single destination shipment

Select Purchase Order when it is <u>ready to ship</u>. Processing a Purchase Order when it is ready to be shipped provides vendor the most up to date address.

Either select a shipment from list presented on the FOB Destination screen or search for a specific order or series of orders using the search process described earlier.

- Select the radio button for the Purchase Order you want to work. If multiple Purchase Orders are displayed and you don't see the one you are looking for, use the search option on the left, enter appropriate data and then either hit **Enter** on keyboard or select the **Search** button and the system will find and display the particular Purchase Order you want to process.

- After selecting the radio button, click **Submit**.

<u>Note</u>: For the purpose of this example we are going to process this as a single shipment, but if you had it packaged in more than one box, you would click on the radio button next to **Multiple Freight Piece**, enter the number of pieces in the text box and then click **Submit**.

FOB Destination Processing (Processing a Single Destination Shipment), Continued

Processing a single destination shipment, continued

The next screen displayed is the shipping screen (Example below).

- Select radio button next to Partial or Total

- Verify the quantity is correct. If you select Partial, you must adjust the Quantity you are shipping to reflect the partial shipment. In this case the partial Quantity would have to be between 1 and 9.

- Enter Total Weight of package being shipped

- Enter Length (L), Width (W) and Height (H) of package in inches; the system will automatically calculate cube.

- Select Carrier you are going to use for this shipment. If you aren't sure, there is an option for <Unknown>

- Enter the Ship Date. Use the calendar icon to select date.

- You may add a Vendor Ref Number, keeping in mind it prints on the MSL.

Verify that you have entered everything correctly and click **Submit.**

Select the desired Hazardous process.

FOB Destination Processing (Processing a Single Destination Shipment), Continued

Processing a single destination shipment, continued

The next screen displayed is FOB Destination Results. Under Shipments Processed, you can choose to print; Container ID Label and Packing List if checked. Click **Submit**.

After you click **Submit**, this will process your shipping documents (see examples below and on the next page). Check shipping documents for accuracy. Once you print these documents and place them on your package, you have completed your FOB Destination Single Piece Process.

FOB Destination Processing (Processing Multiple Freight Pieces for a Single Requisition

Processing Multiple Freight Pieces for a Single Requisition

Select radio button next to the transaction you want to process:

- Click on radio button next to **Multiple Freight Pieces** and enter number of packages you are shipping. In this case, we are shipping three boxes.

- Click **Submit**.

The next screen displayed requires the following information: **Weight** per package, **Dimensions** per package, **Quantity** per package: if the same check **Same for Remaining Pieces**. Fill out remaining areas on form. Click **Submit**. Print documents and place on packages.

FOB Origin Processing (Small Parcel)

FOB Origin Processing Small Parcel

After your successful login, select from the Toolbar "FOB Processing. Select "Fob Origin" from the dropdown menu.
Vendors can select a Purchase Order that is displayed or use any of the search criteria (see section 2.5 for search instructions) to search for a particular Purchase Order.

To select a shipment, click the box beside the desired order and click **Submit.**
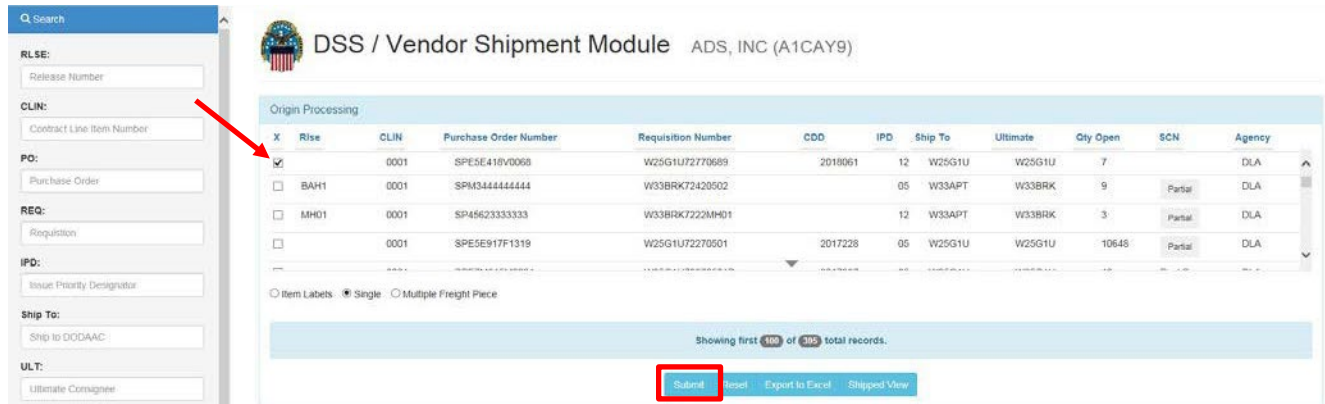

Select desired Hazardous process.

Click **Submit**.
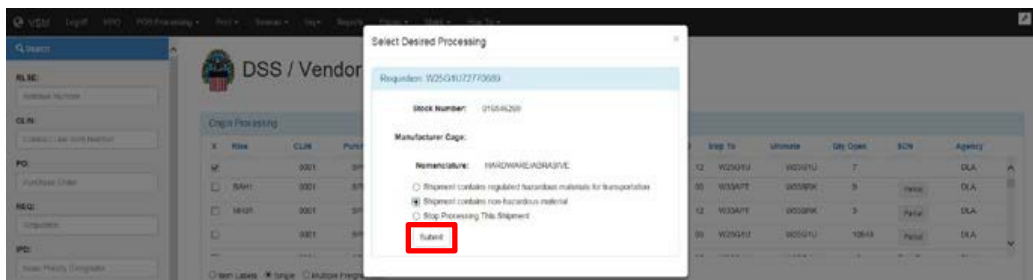

FOB Origin Processing (Small Parcel), Continued

FOB Origin Processing Small Parcel, continued

The next screen displayed will be the Single Variance Processing screen. Vendor will input Processing type (Partial or Total), Quantity, Total Weight (to include packaging material), Dimensions, and Type Pack (BX, PLT, Carton…etc.).

Click on **Submit**.

Note: 1-150 lb shipments will be processed as small parcel shipments. Contact VSM if a palletized shipment is generating small parcel labels.

If processing a Partial Shipment (less than total quantity shown), click "Partial" button versus "Total" button.

Note: **Multiple Freight Piece** CANNOT be used with Origin Small Parcel shipments. For multiple packages using the same contract number, process your partial shipment and then return to process remainder in the same manner.

FOB Origin Processing (Small Parcel), Continued

FOB Origin Processing Small Parcel, continued

> VSM will take you back to FOB Origin Processing screen. A message will display at the bottom of the screen stating your shipment has been accepted. You may have to scroll down the page to see this.
>
> VSM will provide you a Shipment Control Number (SCN).
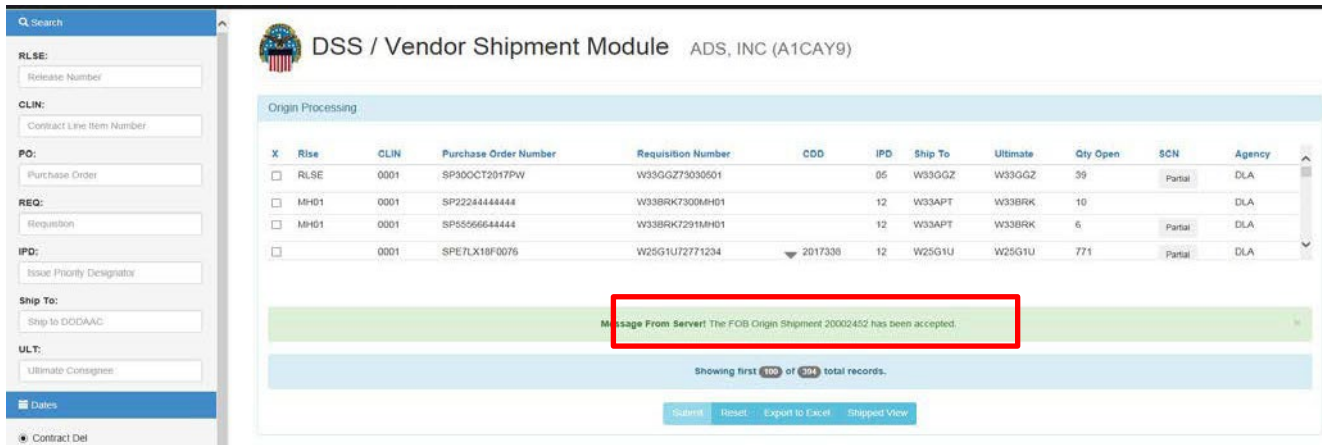

> Your next step is to click the **Print** button at top of page. Select "Print" form the dropdown menu.
> Next screen displayed is a List of shipments available to be printed. Select the shipment you just processed, Notice all Document Choices that are checked will produce these shipping documents; click on "Print."
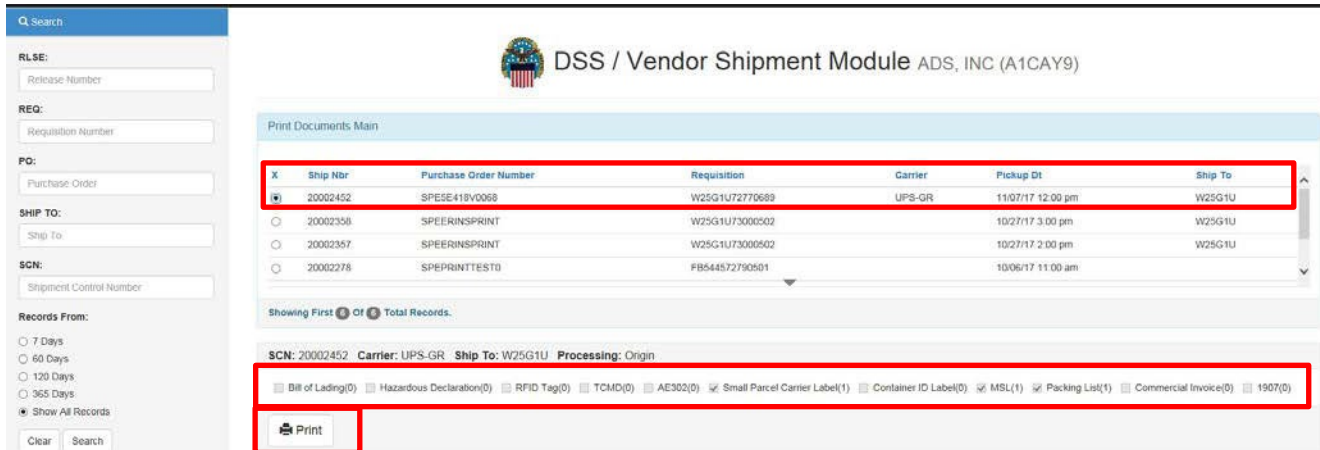

FOB Origin Processing (Small Parcel), Continued

FOB Origin Processing Small Parcel, continued

The following documents will need to be applied to your shipment. Check all documents for accuracy.

Note: If shipping FedEx and you do not have a scheduled pickup, click the **Scheduled Fedex Pickup** button. Fill in the appropriate areas and this schedules a pickup for you. See example below. You have now completed FOB Origin Single Shipment process.

FOB Origin Processing (Small Parcel), Continued

FOB Origin Processing Small Parcel, continued

FOB Origin Processing (Freight)

FOB origin processing freight

Select your document number and click **Submit**.

Select the desired Hazardous status.

Click **Submit**.

FOB Origin Processing (Freight), Continued

FOB origin processing freight, continued
The next screen displayed is FOB Origin – Single Variance Processing. The Vendor will fill-out Processing Type, Quantity, Weight, Dimensions, and Type Pack.

Note: Type Equipment is defaulted to Less than Truckload (LTL)/Truckload. Do **NOT** change equipment unless another type is needed (flatbed, RGN, etc.).

Add carrier remarks if needed (Lift gate needed, stackable or non-stackable freight, POC information, etc.).

Note 1: Please select "Yes" if freight is stackable.

Note 2: If freight requires Origin inspection, change the Ship Date to allow time for inspection.

Click **Submit.**

FOB Origin Processing (Freight), Continued

FOB origin processing freight, continued

Next screen displayed will be Origin Processing with The FOB Origin Shipment 20002453 has been accepted.

Vendors will now be required to wait for a DLA Distribution Transportation Agent (TA) to arrange transportation for your shipment.

Once the TA has processed your shipment, it will show on your list of shipments available to be printed (Print screen). Select your freight shipment and select the appropriate documents.

Click **Print Docs**.

FOB Origin Processing (Freight), Continued

FOB origin processing freight, continued
Documents Printed will include the Military Shipment Label. This label is placed on outside of the shipment and must be visible IAW MIL-STD-129R.

Commercial Bill of Lading must be printed twice - one for the driver and one to keep once driver has accepted freight and signed bill.

Note 1: Block 14 of bill shows the carrier's SCAC. Freight must be given to carrier assigned on bill.

Note 2: If DCMA Contract inspection has not occurred prior to date shipment will be picked up, contact VSM office immediately to reschedule shipment.

FOB Origin Processing (Multi-Piece Freight)

FOB Origin Multi-Piece Freight Processing

Select your contract, select Multiple Freight Piece and enter total number multi-freight pieces.

Select the desired Hazardous status.

Click **Submit**.

FOB Origin Processing (Multi-Piece Freight), Continued

FOB Origin Multi-Piece Freight Processing, continued

The next screen displays FOB Origin – Multi Freight Piece Processing.

The Vendor will select Type Pack; enter Weight, Dimensions and Quantity and click radio button for Partial or Total shipment.

Vendor Reference Number may be added – this information will print on MSL (military shipping label)

Note: Type Equipment is defaulted to LTL/Truckload. Do NOT change equipment unless another type is required (flatbed, RGN, etc.).

Add carrier remarks if needed (Lift gate needed, stackable or non-stackable freight, etc.).

Note: If freight requires Origin inspection, change Ship Date to allow time for inspection.

Click "**Submit.**"

Once you click **Submit**, the print process will be completed once the TA arranges transportation to move your shipment.

Note: If a Defense Contracting Management Agency DCMA contract inspection has not occurred prior to date of shipment, reschedule the shipment by contacting the VSM office immediately.

FOB Origin Processing (All Packed in One)

All packed in one processing

> Select two or more shipments going to the same ultimate destination by clicking the "All Packed in One" button.

> Note: IPD, Ship To and Ultimate all have to be the same for an all packed in one.

> Click **Submit**.

> The next screen displays FOB Origin – All Packed in One Processing. Select Partial or Total for each Requisition number.

> **Note:** One of the Requisitions <u>must</u> be a total quantity – you cannot ship all partials together.

> Input:
> - Quantity
> - Total weight
> - Dimensions

> Select Type Pack, and click **Submit**.

DCMA Inspection

If your shipment requires a DCMA inspection

     If your shipment requires a DCMA inspection do not enter anything into VSM until after the inspection has been completed.

     If you do not follow the above procedures, a carrier will arrive at your facility and you will not be able to release the shipment. **Additional charges will be incurred.**

Rescheduling a DCMA inspection

     If your shipment requires a DCMA inspection, you will need to schedule an appointment for that inspection in Wide Area Work Flow (WAWF).

     You will need to have the **ultimate consignee** in order to schedule your inspection. Your ultimate consignee is found in your contract in the "Freight Shipping Address" section.

     Once you complete the request in WAWF, you should receive an inspection appointment no later than two (2) days for a resident QAR and seven days for a non-resident QAR.

     Once the inspection has occurred and the inspector has approved your shipment, you are ready to enter your shipment details in VSM.
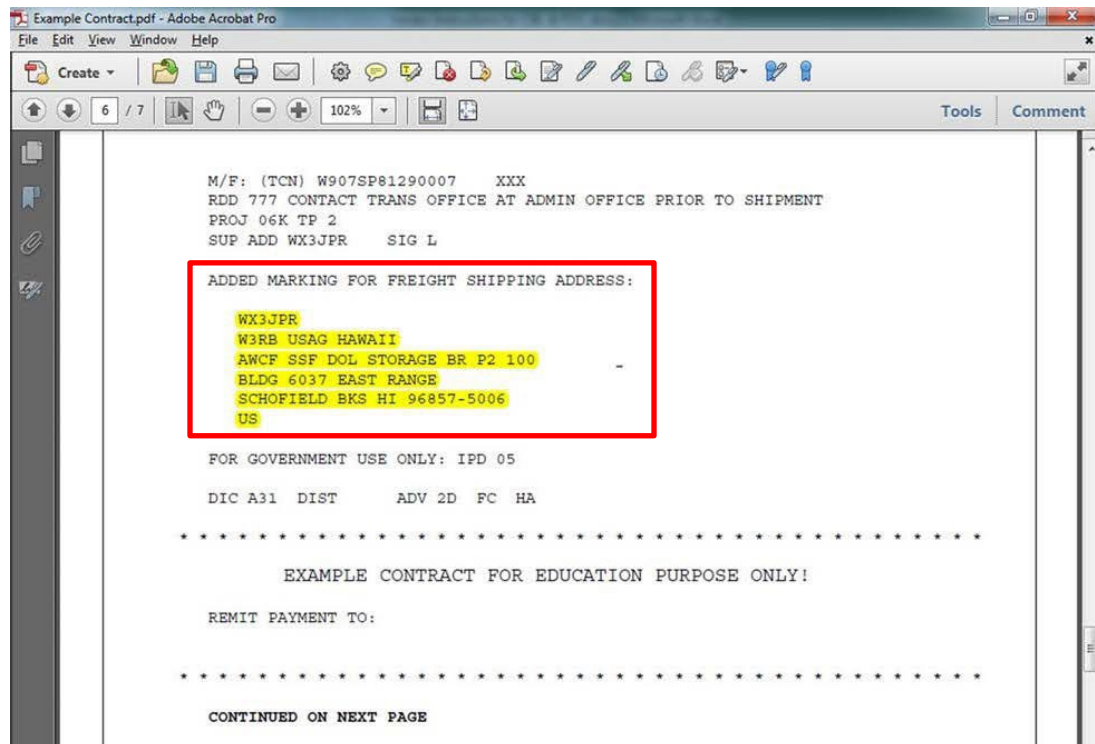

Shipping Documents/Date to Expect Carrier After VSM Processing

Things to keep in mind about shipments
Keep in mind:

- **DO NOT CONTACT 3PL CARRIER PERTAINING TO YOUR SHIPMENTS.**

- Any questions relating to shipments are to be directed to the Defense Logistics Agency (DLA) Distribution Transportation Office at delivery@dla.mil or 800-456-5507.

- ALL shipments should be packed and ready for shipment at the time you process in the VSM.

- Small Parcel Shipments are shipments that are less than 150 lbs., less than 108 inches, less than 12 cubic feet and are under a total girth of 130.

  Note: Girth is calculated – length plus twice the width and twice the height .
  $(L + W(x2) + H(x2))$.

- Your freight shipment **must** be packed and ready for shipment at the time you process within the Vendor Shipment Module (VSM). A carrier will arrive at your facility to pick up this shipment by the below chart. You must print the Military Shipping Label (MSL) along with your documentation.

Carrier arrival to pick up shipment
A carrier will arrive at your facility to pick this shipment by the below chart.

Tier 3 – Shipments are picked up on the 3rd day after 219 submission
Tier 2 – Shipments are picked up on 2nd day (12/24 hours)
Tier 1 – Shipments are picked up on same day (4/8 hours)

This is all dependent on when the 219 is submitted and if there are still hours left in the business day.

Carrier will arrive with an "Offer Number"
There are two types of Offer Numbers:

- One that pertains to a single shipment
- One that applies to a consolidated shipment under a Master Bill Number (MBN).

  If carriers do not supply you with the offer number, please call the DLA Distribution Transportation Office at 800-456-5507 before a carrier is turned away.

Shipping Documents/Date to Expect Carrier After VSM Processing, Continued
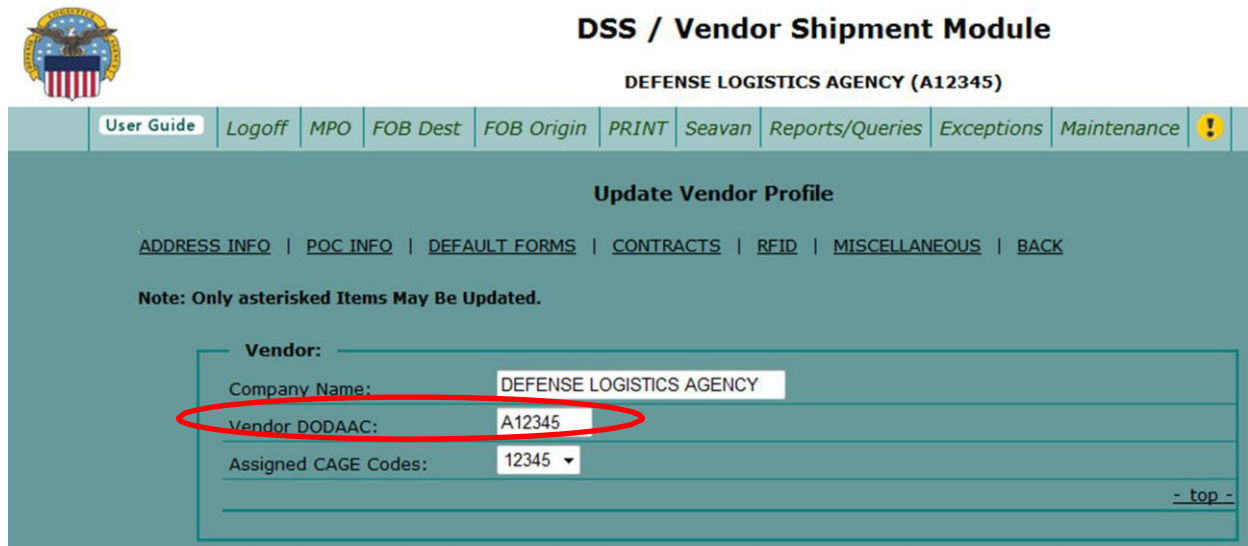

The three parts of an offer number

The offer number contains three parts:

1. The assigned vendor Department of Defense Activity Address Code (DODAAC)

2. The acronym for Shipment Control Number (SCN) or the acronym for Master Bill Number (MBN)

3. The actual eight-digit shipment control number or Master Bill Number applied to that particular shipment.

How to find the Vendor DODAAC

The assigned Vendor DODAAC can be found in the Update Vendor Profile of VSM via the Maintenance tab. This consists of the site Prefix + Cage Code.

a. *Offer Number for a single shipment* = Vendor DODAAC + "SCN" + 01234567
   Example: A12345SCN01234567

b. *Offer Number for a Master Bill* = Vendor DODAAC + "MBN" +00001234
   Example: A12345MBN00001234

Location of the Shipping Control Number (SCN) and the Master Bill Number (MBN)

Identify carrier

To know what carrier is picking up the freight, take the VIA Standard Carrier Alpha Code (SCAC) from the CBL and look it up on the Carrier and SCAC section of this guide.

When contacting DLA Distribution for assistance in answering your questions, please provide the:

- CBL Number
- SCN (displayed on left hand of the CBL and is the last third of the offer number), or
- Master Bill Number (see next page)

Location of the Shipping Control Number (SCN) and the Master Bill Number (MBN), Continued

MBN

When shipments are combined onto one CBL, a Master Bill Number will display in place of the SCN at top of first page.

Location of the Shipping Control Number (SCN) and the Master Bill Number (MBN), Continued

Location of the Transportation Control Number (TCN)

TCN

The TCN is listed on page 2 and subsequent continuation pages.

These are the TCNs that were consolidated onto this shipment under one Master Bill and can be used to search by in VSM.

MRO Tracker

Inquiry–MRO Tracker

From your navigation bar, select "Inq."

Select "MRO Tracker" from the dropdown menu.
Click on "Accept.
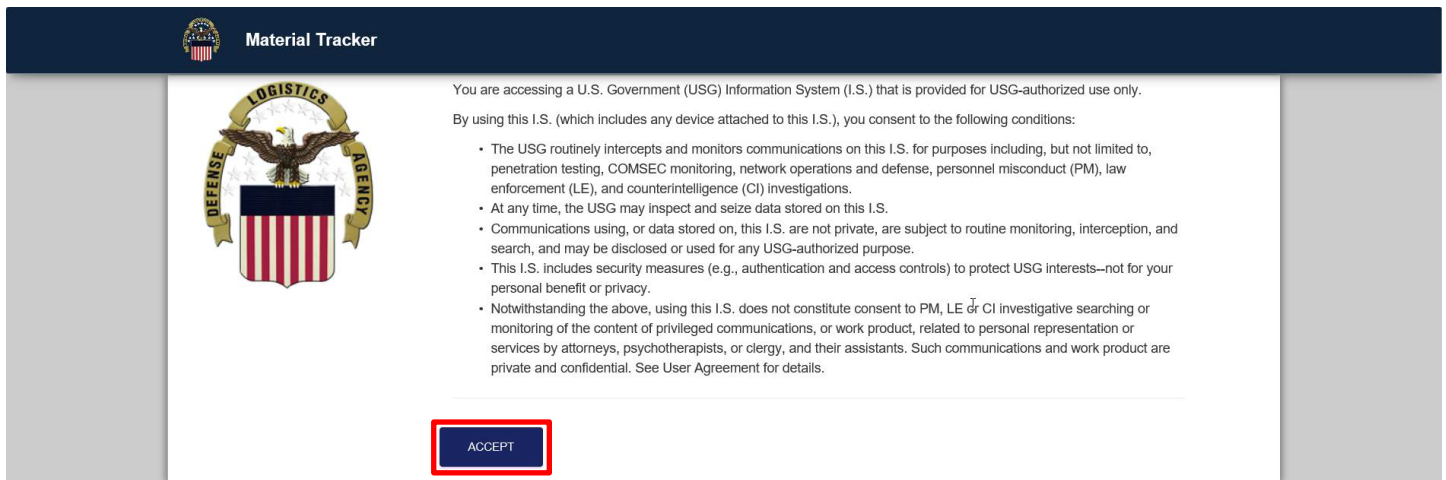

Click on "MRO QUERY."

MRO Tracker, Continued

Inquiry–MRO Tracker, continued

Chose the query type and click **Submit**.

In the example below, we have chosen "TCN." The TCN was input and **Submit** was selected.

The next screen displays available TCNs. Click on the "View Detail" area.

Information on the TCN selected is displayed.

Exception Processing (Pending Shipments)

Pending Shipments

From your Navigation Bar, select **Exceptions** and then **Pending Shipment**.
Next screen displays all Pending Shipments.

Note: Once the "Status" column displays "READY TO PRINT," you can select the SCN and click **Submit** to print documents.
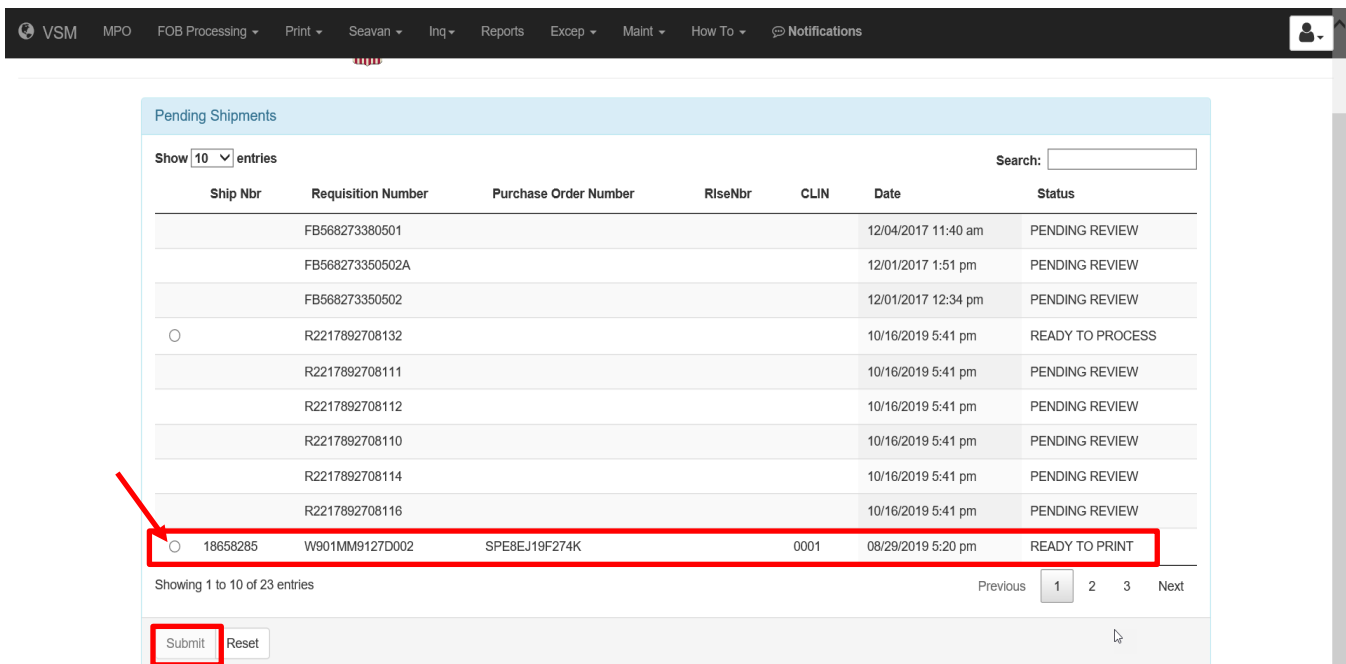

Vendor Account Maintenance and Administrative Procedures

Update Vendor Profile

Navigate to

the **Maintenance** tab, and then go to **Update Vendor Profile** in the drop down menu.

Note: Maintaining your current information is vital to future enhancements of VSM. The address information and hours of operation are used to dispatch carriers to pick up your cargo as well. Correct information is crucial to avoid incorrect information on labels.
This screen allows you to input contact and operational information and update the information when changes occur. Contact VSM for address changes.

The screen displays the different sections within the Update Vendor Profile across both top and bottom of page. Clicking on any of the titles will take you to that section. To return to the top of **Update Vendor Profile** screen, click on **-top-** located in the lower right hand corner of each section. To get back to the previous screen, click on the **BACK** link at either the top or bottom of the page. Please do not use your internet browser to go back.

The Hours of Operation must be recorded in military time. For example: 6:00 AM is 0600, and 8:00 PM is 2000. Also update Holidays and any other specific days your company will be closed.

Vendor Account Maintenance and Administrative Procedures, Continued

Update Vendor Profile, continued

Continue to scroll down the page.

The **Default Form Print Settings** section lists documentation that can be selected to print automatically each time a shipment is processed. However, you have the option not to print a particular document on the **Print Documents** screen that appears just prior to printing your shipping documents. At that time, you may "uncheck" documents you do not wish to print for that particular shipment, which prevents printing unnecessary or unwanted items.

Vendor Account Maintenance and Administrative Procedures, Continued

Change Your Password

Navigate to the **Maintenance** tab along the top navigation bar and select "Change Password" from the dropdown menu.
Input new password.

Vendor Account Maintenance and Administrative Procedures, Continued

Add/Modify Hazardous Record

Navigate to the **Maintenance** tab and select "**Add/Modify Hazardous Record**" from drop down options.
Input:

- NIIN Part Number
- Manufacturer's Cage.

Select the Shipping Type.

Click **Submit**.
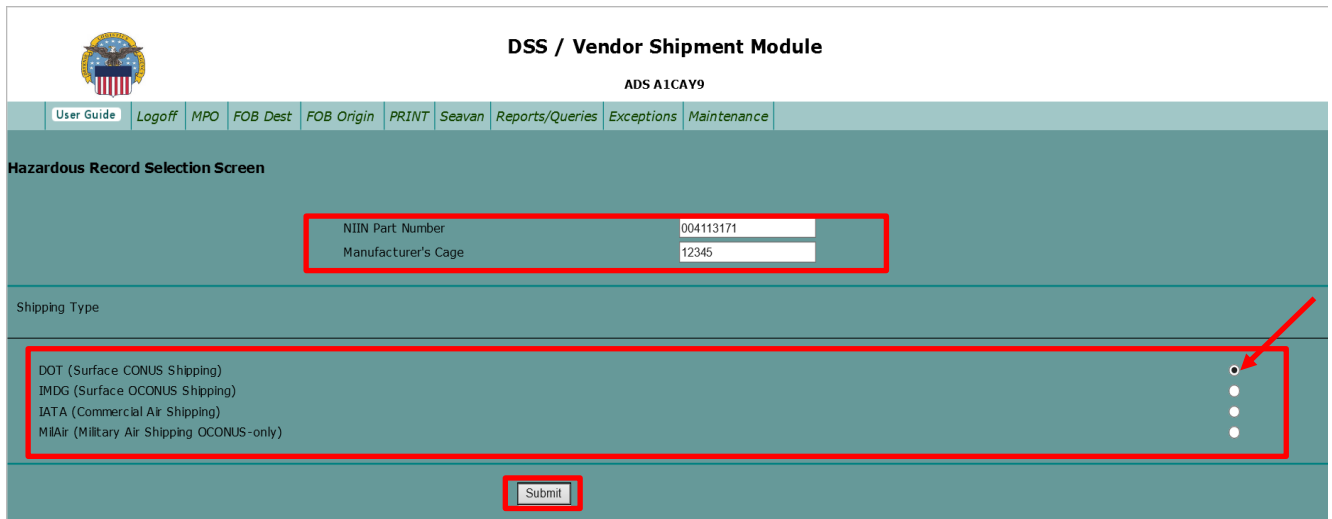

Vendor Account Maintenance and Administrative Procedures, Continued

Add/Modify Hazardous Record, continued

> If information is blank or incorrect:

- Input the appropriate information for the required screens.
- Click "Select Current Record" for each screen to input and save new record

> If **NIIN Part Number** already exists in VSM, the **Detail Information** fields will automatically populate.

> If information is correct:

- Click **Select Current Record**.
- When ready to process shipment, "Process Shipment as Hazardous" must be selected and information added

Vendor Account Maintenance and Administrative Procedures, Continued

Add/Modify Hazardous Record, continued

Vendor Account Maintenance and Administrative Procedures, Continued

User Admin

When vendor initially applied to use VSM, part of the application included assigning a vendor Point of Contact (POC). This person is assigned certain privileges in the system to include: adding new vendor users, editing user profile data, and having the ability to reset suspended accounts.

Navigate to the **Maintenance** tab and select "User Admin" from dropdown menu.
This screen allows you perform the following functions to the User Account:

- Edit
- Delete
- Add
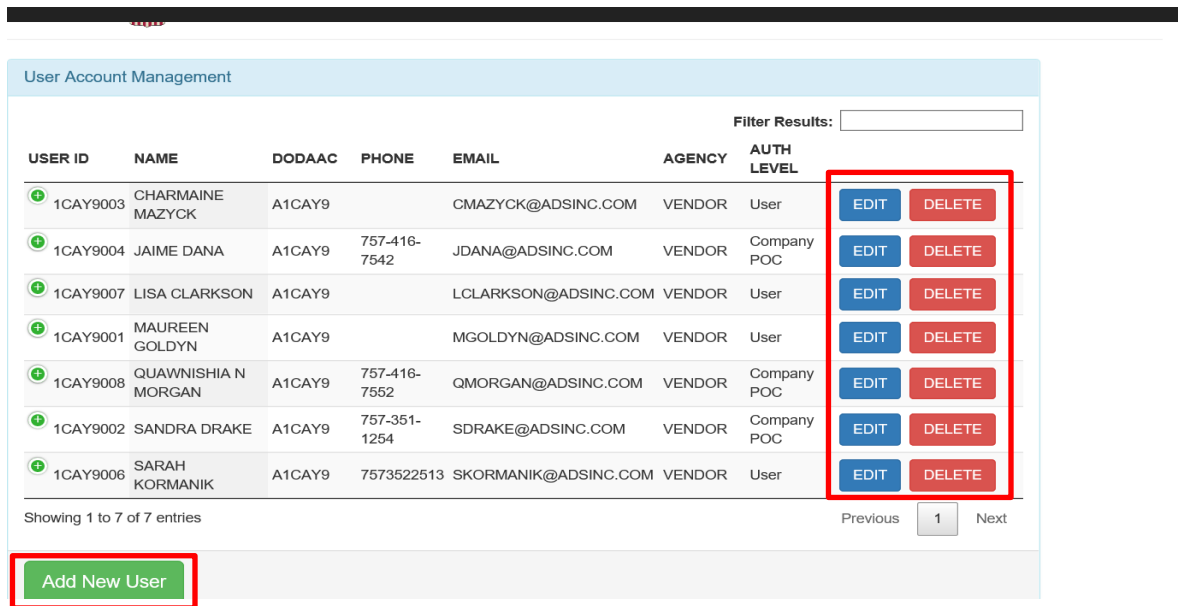

Vendor Account Maintenance and Administrative Procedures, Continued

User Admin, continued

If "Add New User" is chosen, the following screen will be displayed.

Vendor Account Maintenance and Administrative Procedures, Continued

Add Shipping Point

Navigate to the **Maintenance** tab and select **"Add Shipping Point"** from dropdown menu.
Click on "Add Shipment Pt."
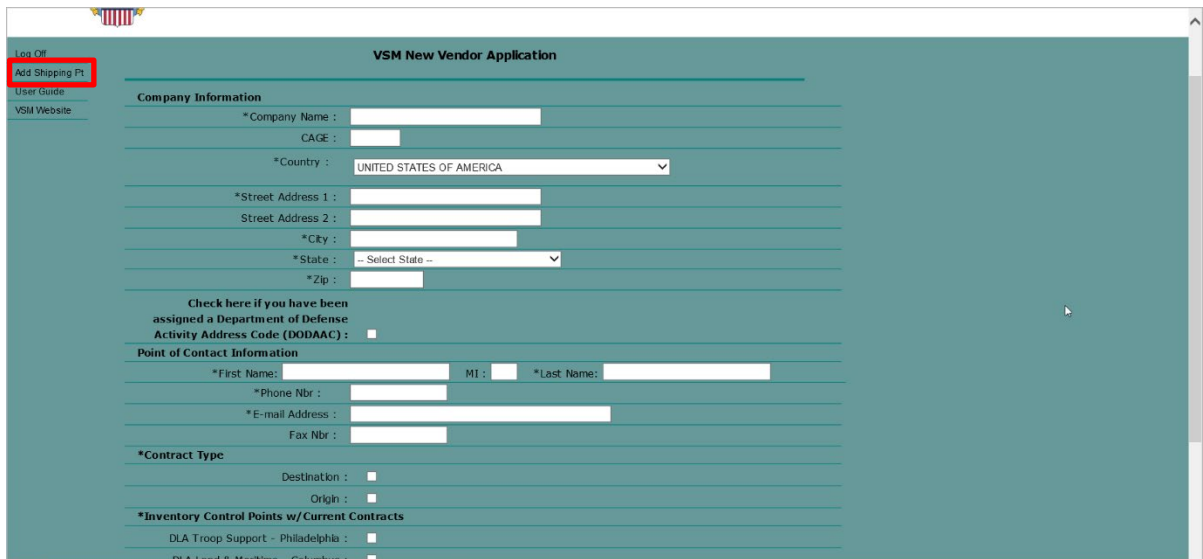

The next screens will allow you to input information about the Alternate Shipping location.

Once information in input, click **Submit**.
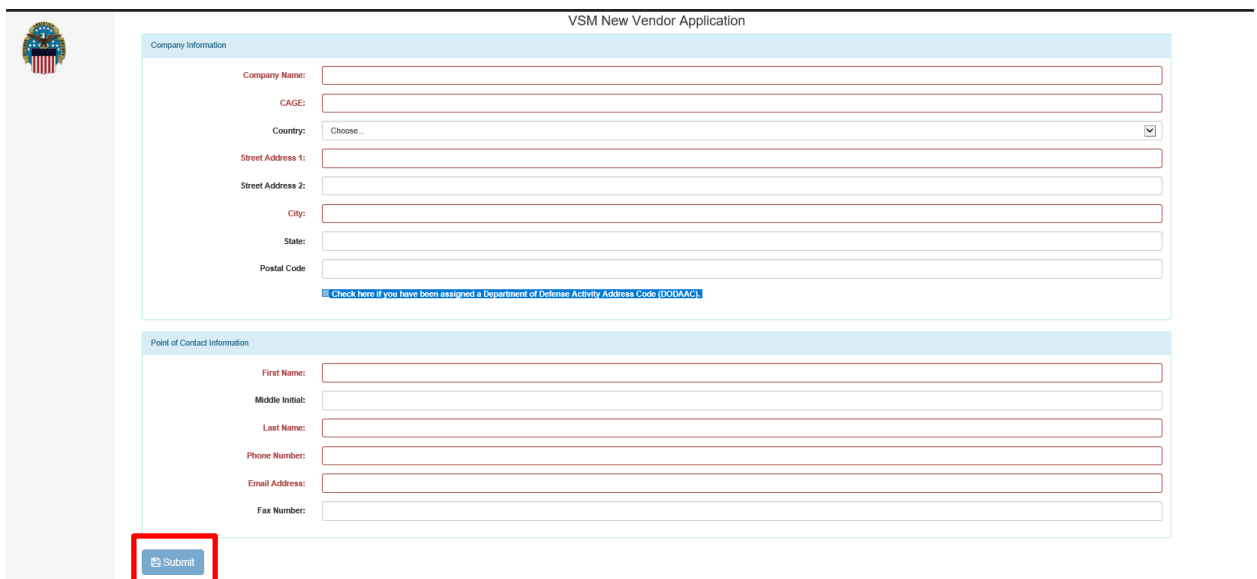

Vendor Account Maintenance and Administrative Procedures, Continued

Add Shipping Point, continued

If your company uses a third party packager, enter your company name/packagers' name. If not, enter your company name/state or city of alternate location. Enter the rest of the required address information and click the **Submit** button.

Note: Cage Code same as companies.

DLA Distribution will receive the application for the shipping location and will respond within 10 business days.

Input:
- Company Name (your company name) / Packaging house (their company name):
  - Example of packaging house: ABC Co / XYZ Co

  - Company Name (your company name) – City of alternate location
  - Example of alternative city: ABC Co – New Cumberland

- Your CAGE
- Address of the Alternate Shipping Point – the pickup address for carriers

Unless you have a DoDAAC that was assigned to your company (this is rare), do not check this box.

Input POC information is your information. You will want to remain as the main POC on the account to control adding, deleting, resetting and editing user access.

- Select:
  - both Destination and Origin
  - all three Major Subordinate Commands (MSCs)

Unless you can get the GS/ISA numbers from your IT, leave blank.

Click **Submit.**

Once the application has been reviewed and approved, you will receive a User ID and Password for your alternate shipping site. You can then login and add user(s) by going to the maintenance tab and down to VSM Admin, your options are on the left.

Vendor Account Maintenance and Administrative Procedures, Continued

Adobe Acrobat Printer Setup

The procedure for setting up a printer to print the Military Shipping Labels (MSL) is dependent on the version of Adobe Acrobat being used. If you do not have Acrobat or are using an earlier version, free downloads are available from https://get.adobe.com/reader/otherversions/.
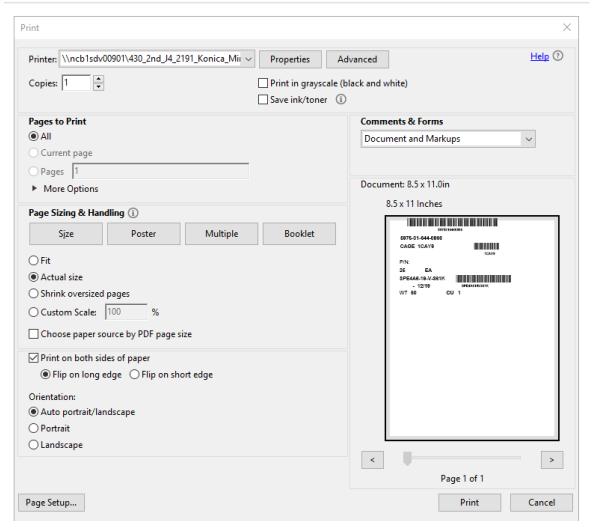

When you are ready to print: ensure you are printing **all** pages, you have the **Size** option set to **Fit**, and the radio button for **Print on both sides of paper** is <u>not</u> selected.

Term	Definition
Accessorial Service Charges (ASC	A service performed by a carrier in addition to the line-haul. Charges by a carrier for rendering service in addition to the line-haul. Such services may include sorting, packing, cooling, heating, switching, delivering, storage, and reconsigning
Bill of Lading (BOL)	The Bill of Lading is the primary document used to procure freight and express transportation and related services from commercial carriers, including freight forwarders.
National Motor Freight Classification (NMFC)	A motor tariff containing freight descriptions of a specific or generic nature under which all commodities moving in motor freight service are "rated" or "classed."
Standing Route Order (SRO).	A route order issued that covers repetitive movements (two or more shipments per month) of specific items between points in the continental United States or intratheater by any mode of transportation when the origin, destination, commodity(ies), and frequency of shipments constitute a repetitive traffic pattern.
Tariff.	A publication containing rates, rules, regulations, and charges applying to commercial/military transportation and accessorial services.
Transportation Control Number (TCN)	A 17-position alphanumeric character set assigned to control a shipment throughout the transportation cycle of the Defense Transportation System.
